MODAMORE & PARTNERS LIGHTING SOLUTIONS

Perfect lighting is one of the most important aspects of good architecture and an essential key in creating the mood and ambiance of a space, whether it be a hotel, residential, retail, places of worship and even outdoors, so getting it right from the start is vital. As crucial as the technical aspect is, the study of space, ambiance, usage, and people who are exposed, defines the perfect solution for the project, emitting a comfortable environment. Modamore & Partners lighting solutions are divided into:

DECORATIVE

- ▶ Crystal Downlight
- ▶ Starry Sky
- ▶ Luminaries
- ▶ Feature

ARCHITECTURAL

- ▶ Street Light
- ▶ Landscape
- ▶ Architectural & Lighting Elements

LED LIGHTING

- ▶ Lamp & LED Candle Lights
- ▶ LED Spot & Downlight
- ▶ LED Panels
- ▶ LED X-Mas

LED LIGHTING SOLUTIONS

A world of LED Lighting Technology, innovation and system.

Our aim is to provide our projects and business partners with innovation, qualitative applications and unique lighting.

LIVING WITH NEW TECHNOLOGY

The first LEDs were developed in the early 1960s, however, they were low-powered and only produced light in the low, red frequencies of the spectrum.

A significant difference from other light sources is that the light is more directional, i.e., emitted as a narrower beam. LED lamps are used for both general and special-purpose lighting. Where colored light is needed, LEDs that inherently emit light of a single color require no energy-absorbing filters.

MODAMORE & PARTNERS UNIQUE SERVICES

INNOVATION AND LIGHTING SOLUTIONS IS OUR MISSION

Our aim is to build a strong and viable relationship with our clients, to help us understand their motivations, aspirations and project requirements. Understanding their needs helps us to provide solutions which are unique to the project, thereby enhancing not only the value of the project but ensuring our clients' vision becomes a reality.

LIGHTING SOLUTIONS ADVISORY SERVICE

We offer a complete Lighting Advisory Service; by providing step by step guidance in determining the perfect lighting solution. Our team has international experience related to variety of projects ranging from hotels & palaces to residential villas.

PRODUCT KNOWLEDGE & PRESENTATION

This includes help in Product selection from our pre-screened and quality checked brand partners. Lighting product briefing and presentation meetings with our clients, development of criteria for lighting.

DESIGN CONCEPTUALIZATION

Our design partners can provide schematic lighting design according to clients' needs this includes 3D visualization depicting lighting concepts.

DESIGN SPECIFICATION

We provide assistance in outline specifications and verification that lighting scheme is within the clients approved budget.

PROJECT TENDERING

Evaluation of tenders and assessment of project viability on behalf of our client in the Middle East region. Assistance in analysis and appraisal of bids. Acting as a representative office for clients thus lowering marketing and operating cost, This includes networking and coordination on behalf of our selected global brand partners in the MENA region.

Further services include review of drawings, clarification of lighting design information and review of lighting installations.

FIT-OUT & PROFESSIONAL APPLICATIONS

Our one of a kind luxury Chandeliers are installed and fitted by professionals. Keeping in mind the uniqueness of this work of art, long term service of regular maintenance and quality control is also provided.

OTHER SERVICES

Analyzing existing projects for refurbishment, assessment of existing lighting installations, customizations and lighting project management. Our consultants can analyze a systems efficacy, determine how it can be improved and offer alternative solutions.

WHEN IT'S AS PURE AS CRYSTAL

◀ BACK TO CONTENTS

PURITY is a LUXURY

CRYSTAL & SPARKLING

Crystal in Latin:
means Iceberg (snow) shining white.

What is crystal:

Crystal is a very pure glass, free of any natural impurities, using high-quality raw materials such as quartz sand, and is devoid of any manufacturing defects. It's development and use of high technology guarantees the accuracy of the cutting, polishing and finishing.

CRYSTALS & SPARKLING CRYSTAL QUALITY DISTINCTION

HIGH QUALITY CRYSTAL

- ▶ Even, most precise shape.
- ▶ Consistent size of facets, most precise convergence of edges.
- ▶ Even, most precise, oval hole.
- ▶ Handling with great care during manufacturing.

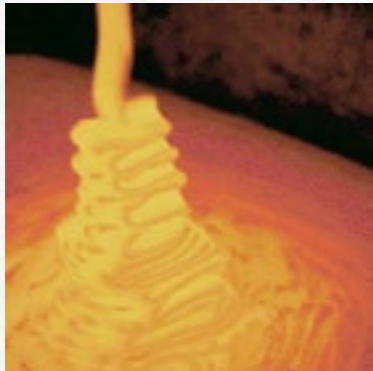

OTHER CRYSTAL

- ▶ Uneven shape.
- ▶ Size of facets may vary, partially imprecise convergence of edges.
- ▶ Uneven, partly broken hole.
- ▶ Incorrect handling – broken edges possible.

TO A CRYSTAL EXPERT

CRYSTALS & SPARKLING KEY TO UNRIVALED BRILLIANCE

UNSURPASSED PURITY

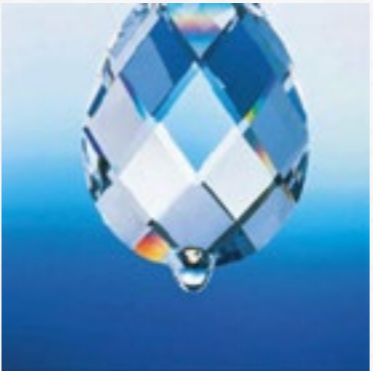

To guarantee unsurpassed purity and the composition of the crystal, we use crystal with the highest-quality and purest raw materials - quartz sand and potash. Crystals with no bubbles, streaks or other faults create optimal transparency. No traces of blue, gray, green or pink colour stream, create ideal light dispersion.

HIGHEST PRECISION CUTTING

Even the most precise, oval hole, use the highest quality machine cut crystal components. Each individual facet is cut, polished and finished to perfection.

Consistent size of facets, most precise convergence of edges, perfect cutting, exact geometry and precise angles lead to optimal brilliance and a clear spectrum of colors.

SUPERB POLISHING AND FINISHING

Superb polishing and finishing ensures that the surface of each facet gleams and shines.

UNCOMPROMISING QUALITY CONTROL

Only products that are absolutely perfect in terms of purity, precision of cut, dimension are used. Leading to always guaranteeing the best quality and therefore no quality variations of the products to the consumers.

CRYSTALS & SPARKLING
**CRYSTAL
OF HIGH
QUALITY**

QUALITY AND BRILLIANCE
OF CRYSTAL CAN BE
DETERMINED BY OBJECTIVE
CRITERIA – INDEPENDENTLY
OF USED MATERIAL:

CUT

The more precisely the crystal is cut, the greater its brilliance.

CLARITY

The purest raw materials and perfect production processes guarantee purity and clarity of crystal. Only crystal free of bubbles, streaks, inclusions, can reveal perfect spectral colors.

COLOR

Perfect crystal is characterized by uniform color intensity and color fidelity. Independent of size and cut.

CONTOUR

A minimum of tolerances ensure perfectly shaped crystal and perfect processing.

CARE

Sustainability and responsible production become increasing values in modern crystal production.

MODAMORE PROMISE:
AT MODAMORE & PARTNERS WE
ONLY USE THE HIGHEST QUALITY
AND PUREST CRYSTAL TO PRODUCE
ANY PROJECT OF ANY SIZE.
